easy access**

Protecta EVO™
EXPRESS
PATENT PENDING

Imagine if technicians had an extra hour of time each day. What could they do with that?

With Protecta EVO EXPRESS technicians will spend significantly less time setting up an account and servicing bait stations. The extra time can be used to better inspect and evaluate rodent activity, implement exclusionary measures or simply to enhance account profitability.

Try it and see how much time and money the EXPRESS can save you.

Ramped entry allows bait to stay dry in water-prone areas

Ribs keep lid from hitting wall when opening station

Can hold 2 T-Rex rat traps, one on each side of tray

Symmetrical key self orients into the lock

Can hold
2 Mini-Rex
mouse traps
one on each
side of tray

Removable tray with
rounded corners
for easy cleaning

Contains 4 vertical
bait positions with
locking rods that
won't fall out
during cleaning,
option for 2 rods on
each side of tray

External

label
securing
option

Includes internal
weight located
under removable
bait tray

Internal service
label holder

Single locking mechanism allows quick servicing yet strong enough to provide a high level of tamper-resistance

Weather resistant Bell barcode sticker is pre-installed & ready to use with your tracking software

Made from 100% recycled heavy duty injection-molded plastic

Ramped entry keeps kids and non-target wildlife from reaching bait or traps

When bait tray is removed it reveals the pre-installed, custom molded concrete block which is completely integrated inside the station. The result is a secure, weighted station with a professional appearance.
