

# ODORCIDE®

## 210 CONCENTRATE

# FRESH SCENT

## Eliminates Odors

*Specifically formulated to eliminate unpleasant odors in carpet, upholstery, rest rooms, locker rooms and more.*

*Odorcide® is a safe and economical product that works through counteraction, absorption and residual actions to completely eliminate malodors. Unlike enzyme based products, Odorcide® is fully compatible with detergents, germicides and cleaning agents and can be used in a wide range of applications.*

- Concentrate
- 128oz (3.79L)
  - 64oz (1.89L)
  - 16oz (474ml)

*The one  
that works!*

Same unique chemistry as Odorcide® Original,  
with a clean fresh scent.

**NEW FRESH  
SCENT**

# ODORCIDE®

## 210 CONCENTRATE

# FRESH SCENT

**Not a mask. Not an enzyme.**

**Same unique chemistry as Odorcide® Original,  
with a clean fresh scent.**

## Background

Serious odors originating from pet/human urine, sweat, mold, feces and decaying organic material can be extremely offensive and difficult to eliminate. Odorcide® works through a process of counteraction and absorption to safely, but effectively eliminate the malodor. Sold in concentrate and ready-to-use forms, it can be used in carpet cleaning systems and a variety of janitorial applications.

## Uses

- Designed to work in carpet cleaning and deodorizing equipment as a pre-soak, detergent or rinse additive.
- As a spray on hard surfaces in restrooms or other rooms found in schools, homes, hospitals and nursing homes.
- As a spray or soaker on upholstery, fabric, carpet, drapery, etc.
- Can also be used for on-going odor elimination as an additive to mop, sponge or sprayer applications.

## Directions for Use: Concentrate

### *One-time odor elimination*

For carpet, locate the source of the odor (a black light or moisture probe may help identify urine deposits) and treat after vacuuming loose dirt and debris. Mix concentrate with water at a rate of 1:16 (8 oz per gallon) and saturate 50% beyond the actual "spot" area. For general carpet deodorizing, add Odorcide® directly to the cleaning extraction system insuring it penetrates to the odor source. Increase penetration by using a roller, hand manipulation or by "walking" the product in.

### *On-going odor elimination*

Dilute with water or cleaning solution at a rate of ½ oz per gallon. Apply to common areas with mop, sponge or trigger sprayer. Use higher dilution for more severe odor situations.

## Product Safety

All Thornell products are safe for use on any surface. As with any product, follow the label directions. Contains water, proprietary essential oil blend and preservatives.

Keep out of the reach of children. For external use only.

## Cautions

Effectiveness decreased when using with Chlorine solutions. Always spot test for color fastness.
