

EcoPCO[®]D

DUST INSECTICIDE

TM

With Active Ingredient: **HEXA-HYDROXYL[®]**

From Plant Essential Oils:

Eugenol	2.50%
2-Phenethyl Propionate	3.75%
Other Ingredients:	93.75%
	100.00%

Hexa-Hydroxyl is the common molecular structure within many different plant oils. University and field-tested and proven to kill and control a broad spectrum of insects.

Kills: Ants, bedbugs, carpet beetles, centipedes, cockroaches, crickets, earwigs, firebrats/silverfish, fleas, millipedes, sowbugs/pillbugs, scorpions, spiders, and other indoor pests. Wasps, yellow jackets and other stinging insects.

- Quick Knockdown
- Residual Protection
- Non-Staining & Non-Corrosive
- Non-Clumping
- Water-Resistant
- Reduced Risk Pesticide

Fresh Scent

EPA Reg. No. 67425-2
EPA Est. No. 39578-TX-1

CAUTION
KEEP OUT OF REACH OF CHILDREN

See back panel for Statement of Practical Treatment.

NET CONTENTS: 12 OZ.

EcoPCO[®]D

DUST INSECTICIDE

EcoPCO[®]D is a specifically formulated ready-to-use dust for the professional pest control operator for use in and around Homes, Offices, Hotels, Motels, Schools, Hospitals, Nursing Homes, Day-care Centers, Factories, Warehouses, Stores, Supermarkets, Restaurants, Food Handling Establishments, Commercial or Institutional Kitchens, Food Processing Plants, Zoos and Transportation Equipment (Aircraft*, Buses, Trucks, Trailers, Boats, Ships, Trains).

DIRECTIONS FOR USE:

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING. EcoPCO[®]D is intended for indoor applications using its own container; a hand-held or power duster is also appropriate.

SHAKE WELL BEFORE USING.

For Crack/Crevice and Void Treatments: Apply uniformly in and around areas where insects may be crawling, hiding, or living. The amount to be applied will vary depending on the severity of the problem and the site treated, but should be in the range of 1 to 2 ounces per 100 square feet of surface area. Applications should include, but are not limited to, cracks/crevices and void areas around and behind interior and exterior walls, cabinets, baseboards, moldings, pipe openings, electrical outlets, stairs, window and door frames and appliances. Repeat as necessary.

For Broadcast Treatments (Attics, Crawl Spaces, False Ceilings, etc.): Apply uniformly around the perimeter and in and around areas where insects may be hiding or living. Apply at a rate of 12 to 16 ounces per 1000 square feet of surface area, depending on the severity of the problem. Repeat as necessary.

For Wasps and Yellow Jackets: It is advisable to treat wasp and yellow jacket nests in the evening when insects are less active and have returned to the nest. Wear protective clothing if necessary to avoid stings. Use a hand or power duster with extension tubes if necessary. Thoroughly dust nest, entrance and surrounding areas. For nests in wall voids, drill a hole in the area of the nest, dust and reseal. For best results, check nests one or two days after treatment to ensure complete kill. Remove and destroy nest to prevent emergence of newly-hatched insects. If removal is not possible, retreat the nest if necessary.

For Bedbugs: Apply thoroughly to all areas where these pests are typically found, including: folds, tufts and edges of mattresses, coils of springs, and cracks and hollow posts of bedsteads. Picture frame moldings and all cracks and crevices in the room should be treated.

For Treatments in Commercial Food Handling Establishments: Applications of this product in the food areas of food handling establishments is limited to void or crack and crevice treatment. The amount to be applied will vary depending on the severity of the problem and the site treated, but should be in the range of 1 to 2 ounces per 100 square feet of surface area. Use equipment capable of applying dust directly into voids, cracks and crevices between different elements of construction, between equipment and floors, openings leading to voids and hollow spaces in walls, equipment legs and bases where insects hide. Repeat as necessary.

Question or Comments: Call 1-888-326-7233 weekdays, 9:00 a.m. to 5:00 p.m. CST.

Chemical Safety Information: Call 1-800-535-5053 anytime (InfoTrac Chemical Response System)

Storage & Disposal: Do not contaminate water, feed or foodstuffs by storage or disposal. Store only in original container in a cool, dry place inaccessible to children and pets. Prevent cross contamination with other pesticides. Bottles/pails: Do not reuse bottle/pail. Rinse thoroughly before discarding in trash.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

- **CAUTION:** Avoid breathing dust. Avoid contact with eyes.

STATEMENT OF PRACTICAL TREATMENT

- **IF IN EYES:** Wash with plenty of water. Consult physician if irritation persists.
- **IF INHALED:** Remove victim to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention.
